HONOLULU, H. I., FRIDAY, JANUARY 27, 1899.

PRICE 5 CENTS.

HOSPITAL FOR ST. LOUIS

There has never been any place at St. Louis College where the sick among the pupils could be isolated and treated by the physician of the school. The boys who were so unfortunate as to contract diseases of various kinds, found it necessary to remain in their beds, surrounded by those perfectly well. A short time ago, there were quite a number of cases of measles at St. Louis College and the necessity for a small hospital was then emphasized. The Bishop of Panapolis interested himself in the matter and offered at once to put up some small building where the sick pupils could be treated, provided the cost was not too great.

In accordance with this, an architect was given the work of drawing up the plans. These were submitted a day or so ago and bills have now been called for.

The hospital is to be a cottage, 24x30 feet and is to be divided as follows: One large ward for pupils, to hold in the neighborhood of four teen; one small ward for the brothers, to hold about three beds; two bath rooms directly to the rear and opening into the brothers' ward; a dispensary next to and back of the bath rooms, with a door into the pupils' ward.

The place picked out on the grounds is mauka and to the rear of the office and in close proximity to the small house now used by the brothers for photographic purposes.

The hospital is to be light and airy and is to be fitted up along the lines of the latest improved methods.

What Material.

Allen & Robinson have been awarded the contract to furnish lumber for wharf extension, and C. Bolte will supply the metal for the same work.

BANKRUPT ESTATE SETTLED

Judge Stanley has approved the accounts and ordered the discharge of T. R. Robinson, assignee of Chu Sam, bankrupt. A dividend of 17.3 per cent is paid. Monsarrat & Weber for assignee. Anastasia Nalani Aebuck Olds has brought an action of trespass on the case against J. A. Magoon, claiming \$1500 damages before a jury at the May term. Complainant alleges that she employed defendant professionally, paying him a fee of \$300, to examine the title of an undivided half of premises in Kukui street. That on his advice she paid \$1000 for the property, but has since discovered that the vendor had no fee simple title to the property. Humphreys & Gear are attorneys for the plaintiff, with Wm. A. Henshall as counsel.

The Supreme Court this morning was hearing the controversy between Charles Nottley and Sons and Kukaian Plantation Co.

Judge Stanley has rendered judgment for Peter High in \$25 against John Fernandez for trespass. Mot-Smith for plaintiff; Correy for defendant.

Co. D's Fine Turnout.

At the regimental drill last evening there was no company that excelled Co. D in the matter of numbers. The boys were all out on time and their drilling was excellent. When the regiment returned to the drill shed, Col. Fisher made a speech in which he complimented very highly the fine turnout of Co. D.

In the Police Court this forenoon Ah Ngim was fined \$50 and costs on the charge of unlawful possession of opium. Ah See, charged with the same, had his case nolle pro'd. Other cases were postponed to later dates.

OMAHA AWARDS TO HAWAII

The Diplomas and Medals Received at Foreign Office.

Some to Designated Schools and Others to Republic—Medals Require Finishing in Gold and Silver.

Minister Cooper has received the diplomas and medals awarded for Hawaiian exhibits at the Trans-Mississippi Exposition held the past summer at Omaha. There are eleven of them as appears below. The medals come in bronze bases, and Minister Cooper will have them gilded and silvered according to their titles. Following is the list:

Gold medal to Kaulawela school for general excellence of exhibit. Gold medal to Kaunakapili school for general excellence of exhibit.

Silver medal to Maunaloa Seminary for needlework and art embroidery.

Gold medal to Manual training school, Honolulu, for general exhibit.

Gold medal to Puhukaina school, Honolulu, for industrial school work.

Gold medal to Fort street government school, Honolulu, for primary educational work, maps and wood carving.

Silver medal to Republic of Hawaii for rice and pea starch.

Silver medal to Republic of Hawaii for prepared sauces, chutneys, jams and jellies.

Gold medal to Republic of Hawaii for leaf tobacco.

Gold medal to Republic of Hawaii for general exhibit.

Gold medal to Republic of Hawaii for educational exhibit.

Mutual Telephone Company.

H. E. McIntyre is now secretary of the Mutual Telephone Co. H. Lose, the retiring secretary, continues as bookkeeper. There was a very small attendance at the annual meeting of stockholders the other day, and only routine business was transacted. A meeting of the directors will be held in a few days, when important executive matters will probably be transacted.

Leather Belting.

The manufacture of leather belting is one of the principal industries of California.

The belting made by L. P. De-gen is as favorably if not better known all over the Pacific Coast, than any other manufactured in the United States.

Attention is called to the ad of that firm in today's supplement.

First Regiment Drills.

There was a good turnout of the First Regiment, N. G. H., last evening. The boys assembled at the drill shed and, from there, marched out to the baseball grounds at Makiki where they drilled for a half hour or so. The band was in attendance.

MORE FROM MR. SCRYMSER

Through Cable May Go By Way of Aleutian Islands.

Necessity of Habitable Islands for Cable Stations—Great Importance of Short Stretches in Ocean Cables.

Owing to the limited time, the interview with James A. Scrymser, the submarine cable owner and promoter, had to be given only in selected part yesterday. After saying that the matter would depend on Congress, and that indications were favorable to a cable built, maintained and operated by the United States Government, Mr. Scrymser proceeded thus:

"My understanding is that they do not propose to go beyond Hawaii, leaving it to open competition for beyond. That is, which ever company makes the most advantageous bid will receive the necessary support from the United States Government. A cable company of that importance, involving expenditure of \$10,000,000, could hardly be floated under the conditions—for in this instance both ends would be controlled by government, one end by the United States and the other by the Chinese and Japanese."

It was here that Mr. Scrymser said, as already reported, that he did not think private capital would care to take the risks of such government control.

Mr. Scrymser, after discussing Pacific cable matters, gave some interesting information regarding his own cable experience. He took up the enterprise in 1865, receiving encouragement to go ahead from Secretary Seward.

Since then he has been instrumental in promoting 14,000 miles of ocean telegraph. He has obtained exclusive rights in Mexico, Central America, Ecuador and Peru. Two of the companies of which he is president have capital exceeding \$12,000,000. The stock of one of these companies is at a premium of 100 and that of the other 45.

"I tell you candidly," Mr. Scrymser said to the BULLETIN reporter, "there is going to be a cable across the Pacific, but it will go by way of Alaska before it comes by Hawaii."

"It is very easy to raise \$5,000,000, but when you have to raise \$20,000,000 it is more than I care to undertake at my time of life. Without the subsidy I would rather go by way of the Aleutian Islands than by the Hawaiian Islands."

"But I have still hopes that the United States Government will reconsider its action regarding the Hawaiian concessions, and when it finds out the facts regarding the matter it will be disposed to act more liberally."

"It is to be regretted that the United States lost the chance of securing the island of Ulan in the Carolines. For the want of this landing station gives you a stretch of 3700 to 3800 miles. Your cable ought to be divided up into lengths of 2000 to 2500 miles. A cable 4000 miles long must be twice as heavy as one 2000 miles long."

"The average member of Congress thinks it is as easy to lay a cable across the Pacific as to lay one across North River. As you increase the length of a cable you have to increase the weight of the conductor. It would require 1200 pounds of copper to the mile for a cable 4000 miles in length. You cannot pick up a cable of that weight. It would break, and besides the expense would be too great. The heaviest cable made has a weight of copper of but 600 pounds to the mile. Anything much heavier would involve not only almost the impossibility of picking it up, but it would be too stiff for the gutta percha insulation."

WAIALUA'S GOOD FORTUNE

Something of the New Hotel and Hunting Lodge.

Main Building will be Finished in May—Cottages to be Built Soon—Resort for Hunters at Kawaihoa.

When B. F. Dillingham had mapped out the hotel at Waialua, he submitted his plans to some of the best known business men of the city with a view to obtaining their views on the feasibility of the project. There were none who gave him any encouragement. Instead, they dubbed a man a very misguided person who would think of putting up a hotel in such a place. No one would patronize it and the scheme would be a losing one. Mr. Dillingham never faltered in his purpose but went on with the work. His plans were drawn and, in a short

Onomea Stock Deal.

Before leaving in the Coptic yesterday Edward Pollitz, of San Francisco, who has been here for several weeks working up a deal in Sugar Stock, took with him 4800 shares of the Onomea Sugar Co's stock. This is one of the largest blocks of stock ever transferred to one person on these islands. The deal involved \$660,000.

A controlling interest in the plantation is retained here, however, and the management will remain as before one year with Castle & Cook and the next with C. Brewer & Co. The stock bought by Mr. Pollitz will be put on the San Francisco market and probably redivided at a ratio of four or five to one.

time, the building was in process of construction and, on or about the first of May, the place will be opened to the public.

The hotel proper has been dwelt upon in the columns of this paper before but there are other plans of later development, that will make the whole place a hundred fold more attractive.

The hotel itself is being built by the very best of carpenters out of the very best of material and comfort is the main factor in the plans. The parlor, office, dining room and other places below are to be surrounded by a wide lanai where one may obtain at various points, a complete survey of the surrounding country.

Above where the air is better and the view of sea and mountains magnificent, will be some twelve sleeping rooms fitted up with all the necessary adjuncts that are to be found in the best hotels. Indeed, such great care has been taken to have the place modern in every respect, that the porcelain bath tubs have been bought in the States.

Several fine cottages are to be built about the hotel for the accommodation of families or people who want to be by themselves. These will be as complete in themselves as the hotel.

A plan of very latest development had just been arranged by Mr. Dillingham. A log hut to be built out of the various kinds of Hawaiian woods found in the mountains near by, will soon be in process of construction. This is to be about five miles mauka of the hotel on higher ground.

The situation picked out is beautiful. It is on the Kawaihoa ridge and on either side is a deep glen where ferns and other tropical growth abound. Like the hotel, the hut is to be a rallying place. A large room with a fire-place in which huge logs will be burned, will be the main feature. Then, of course, will come the dining and

CHURCH DIRECTORY.

REORGANIZED CHURCH OF JESUS CHRIST.—Services in Millard Hall, rear of Opera House, next Sunday as follows: 10 a. m. Sunday School; preaching in Hawaiian 11 a. m. and 6:30 p. m. Preaching in English at 7:30 p. m. by Elder U. W. Greene; subject, "The Signs of the Times." All are invited to come and hear.

CITIZENS' GUARD SCORES

Result of the Shoot for the Last Six Months.

Highest Score by C. L. Crabbe and Lowest by W. Y. Afong—Several Men Were Very High—Maui and Oahu Men Only.

Following is a complete list of the medals and bars won by members of the Citizens' Guard during the six months ending December 31, 1898:

C. L. Crabbe, Honolulu, Marshal's medal. Score 436.

H. C. Ovenden, Honolulu, gold bar. Score 428.

J. Batchelor, Honolulu, gold bar. Score 426.

Geo. N. Hayselden, Lahaina, Maui, gold bar. Score 426.

G. A. Hansen, Hana, Maui, gold bar. Score 424.

Ed. Hingley, Honolulu, gold bar. Score 424.

N. Omsted, Hana, Maui, gold bar. Score 422.

A. N. Hayselden, Lahaina, Maui, gold bar. Score 413.

H. Birkmyre, Lahaina, Maui, gold bar. Score 408.

C. Everett, Honolulu, gold bar. Score 408.

C. Wells, Honolulu, gold bar. Score 402.

Orto Oas, Honolulu, gold bar. Score 402.

W. H. Charlock, Honolulu, silver bar. Score 393.

C. A. Buchanan, Lahaina, Maui, silver bar. Score 393.

J. Gleason, Lahaina, Maui, silver bar. Score 392.

M. G. Johnston, Honolulu, medal and silver bar. Score 386.

Wm. Evans, Honolulu, silver bar. Score 385.

G. H. Dunn, Lahaina, Maui, silver bar. Score 382.

F. Kohler, Lahaina, Maui, medal and silver bar. Score 381.

M. McCann, Lahaina, Maui, medal and silver bar. Score 381.

E. P. Mabie, Honolulu, silver bar. Score 380.

H. Dickenson, Lahaina, Maui, bronze bar. Score 375.

Ed. Waiholo, Lahaina, Maui, medal and bronze bar. 373.

Chas. Gohier, Lahaina, Maui, medal and bronze bar. Score 363.

W. Y. Afong, Honolulu, medal and bronze bar. Score 350.

As will be seen from the scores, C. L. Crabbe won the Marshal's medal by a score of 436. The next man was H. C. Ovenden with 428, who was closely followed by J. Batchelor of this city and Geo. N. Hayselden of Lahaina with 426 each. W. Y. Afong was lowest with 350. Only Oahu and Maui men competed.

Awarded Highest Honors—World's Fair Gold Medal, Midwinter Fair.

DR. PRICE'S CREAM BAKING POWDER

A Pure Grape Cream of Tartar Powder. 40 YEARS "T" STANDARD

To Our Lady Patrons!

We extend a special invitation to call, TO-MORROW (Saturday) and personally inspect our displays, and then order for the Sunday dinner.

We've put forth a special effort to make our handsome establishment attractive and our varied stock tempting, from window displays to rear counters.

In the line of extra dinner stock we have:

Dressed Turkeys, Geese and Chickens.
Fresh Oysters.
Celery, California Cabbage.
Fresh Apples, Navel Oranges.
New Nuts and Raisins.

The famous "Snow Flake" brand of Canned Vegetables: Corn, Succotash, Tomatoes, etc.

And Fancy Groceries in endless varieties.

We're talking about PURE TEAS (which we have in great variety) now-a-days, too, and backing up our arguments with "Tea Leaves," the latest booklet out, and last, but by no means least, the "Simon Pure" article itself. Ask for "Tea Leaves" when you call.
